

# THUMBS UP - CREATING THE BEST

## RECIPE SAMPLING

### HOW WE'LL DETERMINE 'THE BEST'...

Before any meal goes onto our menu, we need to know that the children who eat it enjoy it by giving it a 'Thumbs Up'

Our team of Chefs & Food Ambassadors are looking for volunteer taste-testers to try a sample of our recipes & give us feedback on the meals

All recipes will be taste-tested & re-worked until each recipe has had at least 75% of children giving it a 'Thumbs Up'

75%

### WHAT TO EXPECT...

Our catering teams & chefs will produce samples of the tasty meals

The samples are taken to the classroom, or dining hall & each child is provided with a small sample to taste

The children will vote for whether they give the food a 'Thumbs up' or 'Thumbs down', then describe the taste, texture & smell of the food using adjectives

Depending on how many recipes are tested, the session can last anywhere between 10 to 30 minutes

### WHEN & HOW...

We're flexible with when & how this workshop is delivered & we want to work together with you to choose a time & place that works for your school

We will ensure this session is delivered in a Covid-safe way with Chartwells following hygiene procedures and maintaining social distancing

If you would prefer for the Food Ambassador to deliver this virtually, a video call can be arranged and the food samples can be collected from the catering team

Please contact your Food Ambassador to book

### SCHOOL COUNCIL...

Some schools choose to give this responsibility to their School Council

Alternatively, it can simply be delivered to any individual class
