Dear Parent/Guardian -

Nasal Flu spray vaccination – If you have not yet consented for your child to receive the flu vaccination please do so before 21/11/2021 at 09:30.

If your child suffers with asthma, have they experienced any of the following:

- Increased inhaler use
- Wheezy 72hrs before school vaccination date
- Taken oral steroids within the last 14 days

Then you **MUST** email school.immunisation@mpft.nhs.uk, as your child may not be able to receive their vaccination.

If this occurs on the day of the vaccination session, then please inform your child's school so that a message can be passed to one of the nursing team attending the vaccination session.

Many thanks,

School Age Immunisation Team
