

L.O – To compose a piece using dynamic contrast

Explore

Today we are going to look at one of the big musical elements – DYNAMICS (volume)

Quiet (piano) and loud (forte) sounds that can be used to create various moods for the listener.

Listen to example piece – Jurassic Park, Baby Shark or Nursery Rhyme **(building automaticity in recognising dynamic contrast)**

Teach - Call and Response

Start with vocal warm up – make a loud sound  
make a quiet sound

Separate - Combine - Mix **(building automaticity in creating sounds)**

Repeat process with BP and specific skill

Discuss how we manipulate sounds **(component)**

Active Learning – Improvise and Compose

Combine dynamics with other musical elements – Duration (length of notes) and rhythm (variation of a beat) **(component)**

Individual exploration – Paired - group **(component)**

What sounds well together – What doesn't? Why is that? **(component)**

Is there a way we can get round this – Mini plenary – Getting louder/quieter gradually (Crescendo and Diminuendo)

Share WAGOLL of appropriate piece ( Repeated 4 beat phrase – Each beat has to be a different dynamic – Work on combinations)

Make informed choices from improvisation
