Dear parents and carers,

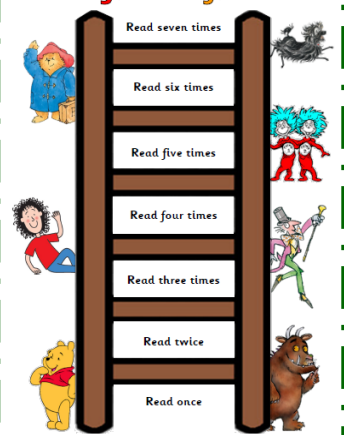

We hope that you have enjoyed seeing your children perform in their nativities and concerts this week. We are so proud of them—they are all superstars.

The festivities have continued with a tasty Christmas dinner today and we have a special visitor coming on Friday for party day.

IMPORTANT

Is it Strep A?

Look for the rash

It has a 'sandpaper' texture. On pale skin it may appear red and have a rough texture. On dark skin it may not appear red, but it will have a rough texture.

Look at the tongue

Bright red with white coating, known as 'strawberry tongue'

Other symptoms may include:

- Temperature
- Headache
- Body aches
- Feeling sick
- Flushed red cheeks
- Dehydration

It can be difficult to tell the difference between 'Strep A' (invasive Group A strep iGAS) and other infections, such as strep throat and impetigo.

The bacteria that causes these infections can usually be treated with prescribed antibiotics.

Your GP may suggest a phone consult to avoid spreading the infection.

Call 999 or go to A&E if your child is having difficulty breathing
